Not-for-Profit Client Testimonials

"I just wanted to thank you for a great strategic planning session on Saturday. The Board were very complimentary of your facilitation skills and direction, and attributed the day's success to your management of the day. It was a great effort and much appreciated. Thank you"

"Frank Gallant has been working with the Executive of the Dalhousie Student Union for the past three years. I worked with him first as Chair of the Executive Review Committee and then for two years as President of the DSU. In that time he has helped me acquire the skills necessary to be an effective leader within my organization and industry. I've learned how to build and work within effective teams which has directly translated into measurable results. I attribute many of the successes of this past year to the strong foundations that Frank was able to help create through working with all of the members of our Executive Team."

Chris Saulnier, President

"I highly recommend this training session. Every organization, large or small would benefit from the experience of Peak's Seventh Generation Workshop. Frank is dynamic, passionate, and truly an inspiration for all of our employees. As a result of this workshop, all of our staff have embraced this training, not only in their day to day work, they have also applied what they learned to their home life as well. The tools and techniques we learned in this workshop on becoming a more responsible, sustainable organization were the catalyst to the creation of our own sustainability plan."

Dan Hodgins, CEO,

"I would like to thank you for all your patience in dealing with a group of well-intentioned but novice board members. You have really helped us sort out an amazing number of things, including the performance appraisal system you helped us implement and the staff training sessions that continue to provide ongoing information and guidance to library staff as we move forward."
